**NOTICE OF SPEED HUMP REPLACEMENT PROJECT
ON BURDETTE ROAD**

April 20, 2017

Dear Resident:

This letter is to inform you of the upcoming speed hump replacement project in your area. The project is being managed by the Montgomery County Department of Transportation (MCDOT), Division of Highway Services. The purpose of this project is to replace the existing speed humps to bring them up to current county specifications.

This project will involve excavating the existing speed humps that are no longer within county specifications and installing nine new standard speed humps that meet current county specifications. We will maintain continuous traffic at-all-times, utilizing lane closures and/or alternating one way traffic patterns.

The speed hump replacement project has been tentatively scheduled to begin the week of May 1, 2017. Weather permitting, the project is expected to take **10 days** to complete. MCDOT will make every effort to expedite the work to facilitate an accelerated completion with the least amount of inconvenience to nearby residents. Should you have any questions or comments, feel free to contact Mr. Josh Faust, Public Outreach Manager, at 240-777-7642 or Mr. James Kisner, Project Manager, at 240-777-7631.

We thank you in advance for your cooperation and apologize for any inconvenience this project may cause.

Sincerely,

A handwritten signature in black ink that reads "Donald Noble".

Donald Noble
